2020
OUTSTANDING ACHIEVEMENT IN ENGINEERING DEVELOPMENT

CONTEST PROCEDURE:
The Engineering Awards Committee is composed of highly qualified Academy members appointed primarily from technically-oriented Peer Groups. The Committee will consider engineering developments and determine which, if any, merit an Emmy.

Emmy(s) to an individual, a company, or an organization for developments in engineering that are either so extensive an improvement on existing methods or so innovative in nature that they materially affect the production, recording, transmission or reception of television. Possibility of one, more than one, or no award.

ENTRY PROCEDURE:
Complete and return the attached form by June 5, 2020. If you have additional print or A/V materials describing the submitted item, please include them with the form. After reviewing the form and any ancillary materials, the committee may request more specific information.

Official Entry Form for Award Consideration

ENTRY TO BE CONSIDERED ____________________________________________

NAME AND TITLE OF PERSON TO BE CONTACTED REGARDING THIS ENTRY:

______________________________________________

NAME OF COMPANY ____________________________________________

STREET ADDRESS ____________________________________________

CITY, STATE AND ZIP CODE ______________________________________

PHONE NUMBER ____________________________

EMAIL ______________________________________

Date of invention or technology application __________________________

Has application been filed for patent?  ☐ Yes  ☐ No

Serial number of application ______________________________________

Date of filing ______________________

If patent has been issued, URL where it can be accessed:

___________________________________________________________

Patent Number _____________________________________________

Date issued _________________
Name(s) of primary inventor(s) and developer(s) for this achievement – maximum of four.

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

In a case where more than four individuals would be submitted, the entry must be changed from an individual entry to a company entry. Commemorative Emmys may be purchased for the individuals.

Company name: __________________________________________________________________

If this is a company entry, was the achievement developed in conjunction with other corporations or institutions?  ❑ Yes  ❑ No

If yes, then it must be entered together with those other entities, e.g., "Fujinon Precision Focus Assistance System (Fujinon Inc. and NHK)."

List all companies:

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

If this is an individual entry, are the individuals living? ________________

Eligible entries must have been utilized on nationally televised programming. Please list the program(s), broadcast date(s) and distribution platform(s), e.g., ABC, Discovery Channel, or www.bbcamerica.com.

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

In what way is this item unique or an improvement over previous or current technologies?

________________________________________________________________________
Please cite those previous or current technologies:

Has the achievement been recognized with a National Academy of Television Arts & Sciences Engineering Emmy or any other industry recognition?  ❑ Yes   ❑ No

If yes, list recognition(s) and year(s) awarded:

In a brief summary, please explain how this entry advances the state of the art.

Please provide the name(s) and email contact information for industry professional(s) who can attest to how the entry advances the state of the art.
