

Slicer instructions for Mac OS users:

- 1) Download Slicer from <https://www.verizondigitalmedia.com/television-academy/download/>
- 2) Open the archive and launch Slicer

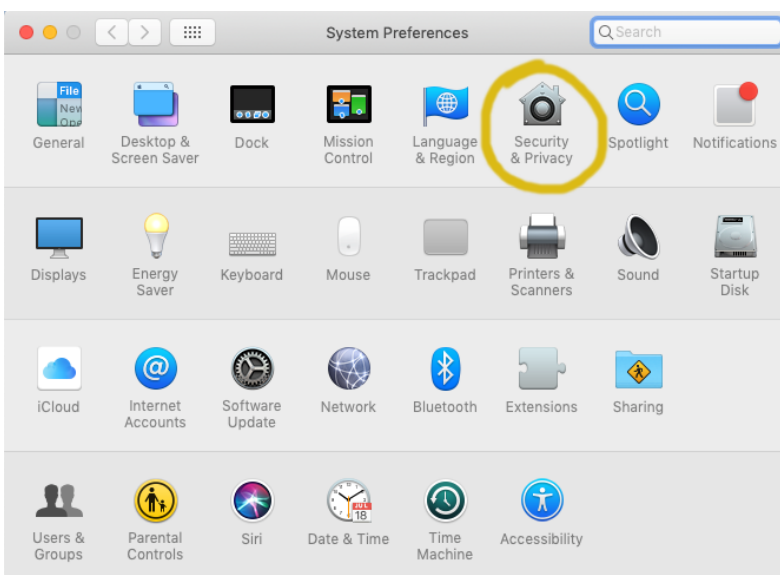

- 3) The first time you launch Slicer, this error will appear:

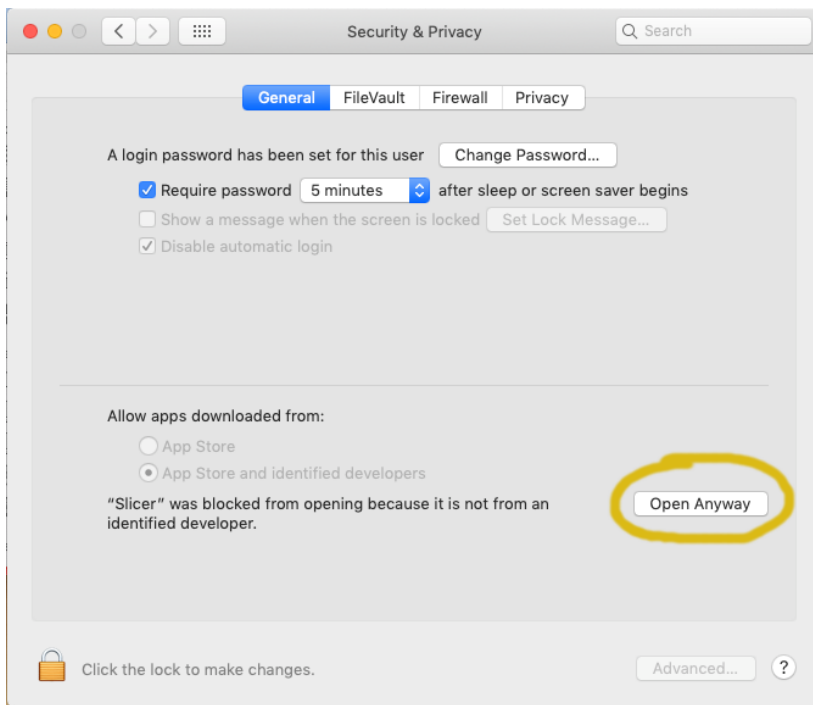

*\*\*Your company may have security settings, requiring you to enter your password before Slicer can launch.*

- 4) To authorize Slicer to run on your Mac, open System Preferences
- 5) Locate the Security and Privacy pane in System Preferences

6) On the General tab, of the Security and Privacy pane, click on the “Open Anyway” button

7) Slicer should now open to the login screen
